SRM University

2019-2023

## Skills

- **Tools & Technologies:** Excel, Power BI, SQL, Python, JQL
- **Cloud & Data Platforms:** Azure Synapse, Azure Storage, Azure Data Factory, Azure Pipelines, Azure Databricks
- **Core Skills:** Data Analysis, Reporting, Testing & QA, Client Communication, Collaboration, Problem Solving, Process Documentation

## Certifications

- Deloitte AI Academy
- Introduction to AI
- Fundamentals of Red Hat Enterprise Linux
- Industrial IoT on Google Cloud Platform

## Professional Experience

Jan 16, 2024 – Present

### Deloitte – Data Analyst

#### Elevance Healthcare Project

- Delivered 400+ market-facing reports across 14 markets, addressing high-severity issues to prevent member and provider abrasions.
- Proposed and implemented a Generative AI (GenAI) solution that reduced report creation time by 45%.
- Contributed to testing by designing and executing 45 test cases and logging 5 defects, resulting in zero post-go-live issues.
- Analyzed and expedited resolution of 87+ super-aged tickets to improve operational efficiency.
- Presented reports to clients across multiple markets, supporting data-driven decision-making.
- Collaborated with cross-functional teams to align deliverables with client expectations, enhancing processes and client satisfaction

#### Kroger S&A Project

- Gained hands-on experience with Azure tools including Storage Accounts, Pipelines, Databricks, Synapse, and Power BI.
- Applied cloud data solutions to support analytics workflows, improving technical proficiency in modern data platforms.

### Dumela Bots – Trainee Assistant (Internship)

March 2023 – May 2023

- Designed conversation flows and deployed chatbots to enhance user interaction.
- Conducted comprehensive testing to ensure seamless functionality and positive user experience.
- Documented development processes and best practices to support future chatbot enhancements.

## Projects

### • Automated Timetable Generation for Academic Institutions

Developed an innovative system to automate timetable creation, optimizing faculty availability and classroom utilization. Streamlined academic scheduling, reducing manual workload and minimizing conflicts.

### • Driver's Drowsiness Detection

Built a real-time system leveraging video analysis to monitor facial expressions, eye movements, and head pose. Triggered alerts on signs of fatigue, aiming to reduce accident risk and enhance driver safety.

## Achievements

- **Spot Award** – Deloitte- Received for consistently completing reporting deliverables on time, supporting ad-hoc tasks with diligence, and showing strong dedication to learning and contributing to US Healthcare processes.
- **Applause Award** – Deloitte- Awarded for outstanding efforts in managing System Integration Testing (SIT) for Extracts and Daily Sales Reports, while also contributing to Market Facing Reports (MFR) requirements and successfully completing User Acceptance Testing (UAT).
